EXPERIENCE

Arrive Recommerce, Remote — *Senior Software Engineer, Front End*

JUNE 2023 - PRESENT

- Currently developing a SaSS Merchant Portal UI for “The Arrive Platform”
- Improving existing Storefront and Warehouse Management Dashboards by implementing a design system and custom component library.
- Refactored several features for consistency and improved performance.

Parachute Home, Los Angeles / Remote — *Senior Software Engineer, Front End*

APRIL 2018 - MAY 2023 (~5 years)

- Drove eCommerce growth for emerging home brand from under \$1M/yr to over \$150M/yr through the development of a self-hosted architecture utilizing Typescript, React.js, Next.js, Vercel, Contentful, Shopify and in-house APIs.
- Developed a custom reusable component library using Storybook working closely with designers to adhere to design system specifications.
- Responsible for significant improvements to Google Pagespeed Insights (Lighthouse) metrics through analysis and maintenance projects.
- Collaborated with consultants to improve sitewide SEO on eCommerce and editorial blog pages by implementing recommendations.
- Expanded the Digital Team from one person to 15+ (engineers, designers, product managers) through collaboration with executives.
- Managed a team of 3+ frontend devs and streamlined various team processes (standups, refinements, spring, planning, sprint retros, etc.)

Parachute Home, Los Angeles — *Front End Developer*

JUNE 2015 - MARCH 2018 (~3 Years)

- Lead development of Shopify hosted eCommerce store, including all new features, third-party apps, SEO, Google Analytics, Google Tag Manager and site performance.
- Created website for branded “Parachute Hotel” in Venice, including integrated booking system
- Served as the first technical employee at Parachute Home, contributing significantly to its growth and success.

Toyota of Australia, Sydney — *Front End Developer*

MAY 2014 - DECEMBER 2014 (~8 Months)

- Built, implemented and maintained several new features, including a 360° “build your own” vehicle tool.
- Collaborated with a team of 10+ engineers and product designers.

Freelance, Los Angeles — *Web Developer*

JUNE 2010 - OCTOBER 2016 (~6 Years)

- Enabled various clients and companies to have an accessible web presence including DoStuff Media (Lollapalooza Chile, DoLA), Spaceland Presents (The Echo and Echoplex), NCLA Beauty and more.

EDUCATION

University of Texas at Austin - B.S.

JUNE 2001 - MAY 2006
